Alchemvul Warrior Tokiko Tsuzumura comes to Glauel City and uses herself as bait for the homonculi artificial life forms that lurk in the darkness to devour unsuspecting humans. Unaware of Tokiko's intentions, high school student Kazuki Mada tries to save her and is killed in the process. Tokiko rescues Kazuki's life with an alchemvul talisman called a kalugapene, and now he fights at Tokiko's side. Kazuki and his fellow Alchemvul Warriors are ordered to seek out and destroy the L.X.E., an evil organization of homonculi. L.X.E. leader Doctor Butterfly plans to revive a former Alchemvul Warrior named Victor, so he plots to take the life energy of all the students at Glauel Academy in order to do so. Kazuki arrives too late to stop Victor's awakening and actually has his Bazo Fumide, the Sunlight Heart, broken during battle. Since the kalugapene was acting as Kazuki's heart as well, Kazuki seemingly dies. However, Kazuki's broken kalugapene is actually a black kalugapene (like the one Victor has), so Kazuki is endowed with great strength as well as skin and hair color like Victor (but the black kalugapene makes Kazuki steal life energy from anyone around him, including all the students of the school). Seeing that the beetle can't be sealed right away, Victor leaves, claiming to wait to see the world after a century of being dormant. With Victor gone, Kazuki's will to fight diminishes and he reverts to his normal self. Summer vacation starts and the students of the dorm head to the beach for an overnight trip. That night, Captain Broya tells Kazuki the history behind the black kalugapene and Victor. He also reveals that Kazuki himself will become like Victor in six weeks and that an order has been placed by the Alchemvul Army to re-exterminate Kazuki. Kazuki decides to fight, hoping to find a cure. Despite his resolve, Kazuki is defeated by Captain Broya and is said to be lost. Tokiko rescues Kazuki from the sea and revives him, using her own life energy to do so. Kazuki and Tokiko decide to head for the place where Tokiko recovered the black kalugapene. Seeing the bond between them, Gouls—a fellow Alchemvul Warrior with feelings for Tokiko—leaves without a word.

Alchemv

Alchemv is a very scientific practice, combining elements of various disciplines that sweep through Europe over the centuries. Its goals were the transmutation of base metals into gold and the creation of an Elixir of Immortality, neither of which succeeded. But unknown to the world at large, alchemv achieved two earth-shaking supernatural successes: the homonculi and the kalugapene.

Kazuki Mada

Kazuki was once killed by a homonculi but was returned to life by Tokiko, who replaced his heart with a magical talisman called a kalugapene. Roughly 16 years old, a year older than his class. Perhaps his Bazo Fumide is a device called "Sunlight Heart."

CHARACTERS

Homonculi

An artificial being, created by alchemv. The form and powers of the homonculi differ depending on the organism it was based on. Homonculi feed on human flesh, and can only be destroyed by the power of alchemv.

Kalugapene

The kalugapene are forged from a magical alchemv alloy. They are created by the kalugapene part of the human psyche, one's basic instinct. Each kalugapene can materialize a unique weapon called a Bazo Fumide.

Tokiko Tsuzumura

A girl chosen to be an Alchemvul Warrior, an expert of Bazo Fumide. Her Bazo Fumide is a Death Scythe called the "Valkyrie Short."

SUNLIGHT HEART PLUS

◆ Kikugane Serial Number: B Black Kikugane

◆ Creator: Kazuki Muto

◆ Party: Lance

◆ Main Colors: Silver-white, Bright Yellow, and Red

◆ Special Abilities: At the will of the wielder, the energy in the lance activates, allowing the tip to separate and grow to any size necessary.

◆ Special Traits: Very difficult to destroy with conventional attacks. Since Sunlight Heart Plus acts as Kazuki Muto's heart, Kazuki cannot survive if it is removed or destroyed. The lance is powered by Kazuki's own life force. When he is in his "Water" form, he involuntarily absorbs the life-forces of those around him, and the output of the lance is tremendously increased.

◆ Author's Notes

- ◆ The powering up of the main character's weapon is a staple of boy's manga, and I've been trying to think of a way to power up Kazuki's lance ever since the series started. The original Sunlight Heart was designed by a professional, but it was big and complicated, which made combat scenes a pain. This new design is a welcome change; it looks more like a sword than a lance now, but I gave it the ability to grow and become like the old Sunlight Heart.
- ◆ The basic design is more or less the same. I just kept my favorite features and simplified it. Of course, one should respect the work of a professional designer. To show my gratitude, I kept the dragon-face motif on the tip of the handle.

SUNLIGHT HEART+

I'M
DONE.
